Business VONtel.....	\$35 ⁹⁵

TCT Protection Plan

With TCT services including Internet \$4⁰⁰

TCT's protection plan covers damage to specified equipment used with TCT services, whether owned by you or by TCT. It is strongly recommended that all customers use surge protection and proper electrical grounding for equipment. This protection plan is void where grounding and surge protection are not in place.

Items covered (including equipment owned by customer or TCT) ATA boxes, TCT-installed subscriber modules (dishes/antennas), surge suppressors and power injectors (POEs).

Items not covered - Computers, routers (including wireless), switches not sold by TCT, telephones, cellular equipment, caller ID boxes, fax machines, or answering machines.

Note: If you choose not to subscribe to the protection plan, you will be responsible for replacement of any damaged equipment. You may also be subject to hourly labor charges if a technician is called to your home to service equipment and/or wiring.

* High speed Internet connection and Analog Telephone Adapter required.

* Service availability contingent upon site survey at no charge. Certain packages available in select areas. Installation and connect fees may apply.
